infrahacks

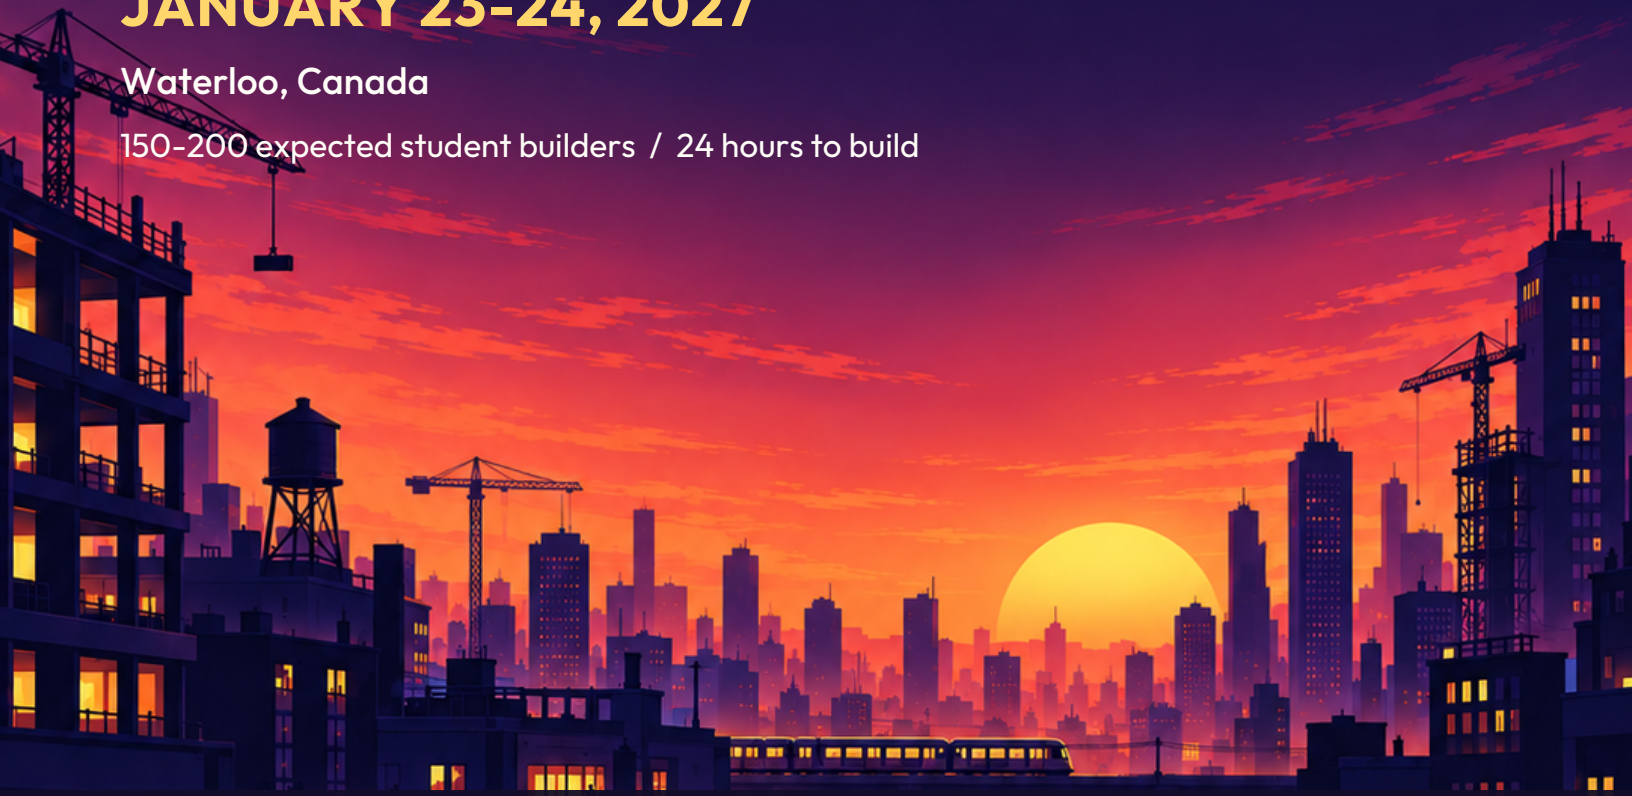

Put your industry challenge in the hands of student builders.

A free, in-person hackathon for housing, transit, energy and construction.

JANUARY 23-24, 2027

Waterloo, Canada

150-200 expected student builders / 24 hours to build

FROM OUR FIRST EDITION

90+ hackers | **6** sponsors

Explore the partnerships →

sponsors@infrahacks.org

Be part of the build.

150-200 expected student builders, selected by application for curiosity, craft, grit and kindness. Meet students drawn to housing, transit, energy and construction.

01 **Shape a real challenge.**

Co-write a brief around a problem from your industry, released at kickoff. Meet the teams that choose it and help judge their work.

SKYLINE + BLUEPRINT

02 **Meet builders at work.**

Use booth conversations, mentoring and final demos to understand how students think, collaborate and build.

PARTICIPATION VARIES BY TIER

03 **Put your tools to work.**

Bring API credits, datasets or hardware that students can use in their projects. In-kind support can count toward tier placement.

CUSTOM CONTRIBUTIONS WELCOME

The weekend

FUNDS MANAGED THROUGH HCB

About HCB →

InfraHacks holds and manages event funds through HCB, Hack Club's financial platform. Its transaction records, receipt tracking and expense tools help us document incoming support and event spending.

Let's build your partnership.

Tell us your goal, preferred tier and how you'd like to participate.
We'll follow up within one business day.
